

Eghosa Igbiniedion

Hi, my name is Eghosa Matteo Igbiniedion Osamwonyi.

I'm passionate about all sorts of practical and theoretical knowledge, I am a lover of animation, editing and artificial intelligence.

I am a computer science student at the University of Padua, I am very passionate about the theoretical side of computer science, artificial intelligence and computer graphics. In my free time I like to dedicate a lot of my time to deepening my skills in various other fields including mathematics, physics and statistics. I am a great lover of Greek and Norse mythology, philosophy and general psychology. In my free time I enjoy playing the guitar, 2D and 3D animation and photo and video editing. I am a person who likes not to limit himself in experiences, a lover of team work and always curious to learn new things.

Experience

○ 2022-2023

CityWare | Via S. Marco, 6/b, 35129 Padova PD

Video surveillance officer

I held the role of Video Surveillance Officer within the security and parking management department with automatic license plate reading. My job consisted of operating and monitoring the video surveillance system, ensuring the safety of the car parks managed by the company, providing user assistance, managing subscriptions and responding to emails.
